29. 10. 2020

To whom it may concern,

It is my pleasure to write on behalf of my student Mr. R. Raghu, who completed B. Tech Information Technology at Sri Sai Ram Institute of Technology, Chennai. As his mentor and lecturer, I know him for 4 years (2016-2020). He was a supportive and active listener in class. He was my student, and in my opinion, he is well behaved as well as diligent. Incidentally, my colleagues, who have taught him various subjects, share this opinion of mine.

He has an attitude for learning and he has impressed his professor and lecturers on many occasions. He played a leading role in the various activities conducted in the college. I observed that he has thorough knowledge, optimistic character, and good presence of mind. His test marks have been consistently good. I have taught him "Programming and Data Structures", "Computer Networks", and "Distributed System" in the semester 2,5, and 6 respectively. He scored decently in all my subjects and performed well in all the internals.

Besides academics, he is a well-disciplined and enthusiastic student. I am very sure that Raghu would be a valuable asset to your program. I agree and support his decision to pursue master's degree in your reputed institution. I am fully confident that he will excel academically due to his interest to acquire knowledge, apply theoretical concepts to develop practical solutions. Therefore, I strongly recommend him for higher studies at your university. Please feel free to contact me for any further information.

Regards,

(Ms. S. Sujeetha)

LETTER OF RECOMMENDATION

I feel compelled to write this letter of recommendation for Ms. Ashly Chinnu Varughese who wishes to continue her studies and pursue a master degree course at your prestigious university. She is adept with analytical and critical reasoning abilities and has demonstrated excellent programming skills. Her determination and focus, further amplify these qualities. Hence, she is competent to excel in any institute.

I have taught her Computer Networks, Networks Laboratory, Database Management Systems, Cryptography and Network Security and have known her since the first year of Bachelors in Technology in Information Technology from our institution. Ms. Ashly was one of the brightest students of her batch. This was evident from her active participation in class, her contribution to seminars and the dedication she put in the subjects and the assignments that followed. I remember precisely that she always completed her assignments well ahead and with conceptual research. In spite of all these contributions, she was among the top 2% in the Anna University ranking.

In addition to her outstanding performance in academics, Ms. Ashly was also very enthusiastic towards extra-curricular activities like seminars and workshops. She not only participated in such seminars but also organized various technical seminars and contributed in conferences throughout the four years of her undergrad. She also organized an event for 2016's department symposium "DREAMSQUAD" which was a national level event. All these activities helped in her overall development as a student.

Ms. Ashly is a reliable and disciplined person. Further she has the capacity of adapting herself to any new and challenging environment. With these strengths and her co-operative nature, I firmly believe her association with your university will be fruitful to her and the university and I recommend her for pursuing graduate program to degree in your university with full financial aid. I assure you that she will do great in her future ventures too.
